DE BELEYR-ENGINEERING

De Beleyr-Engineering, since 1962 supplier for:

- **petrochemical**
- **textile**
- **plastics**
- **printing**
- **paper and steel industries**

With our modern, advanced equipment, we are completely at your service, both for urgent repairs and new or machinery construction.

Our construction services:

TURNING

Conventional - From smaller to larger pieces and lengths: diam. 1240 mm to 8000 mm in length, diam. 1800 mm to 4000 mm in length

CNC - Up to 6 m between the points: from a diam. of 300 mm to 1500 mm in length and from a diam. of 1000 mm to 6000 mm in length

MILLING

CNC - different machine centres up to dimensions of 1800 x 860 x 750 mm (XYZ)

CNC milling up to 3000 x 1000 x 1000 mm (XYZ) with fourth axis.

CNC milling up to 3000 x 1950 x 800 mm (XYZ) with perpendicular head.

GRINDING

surface and circular grinding/OD grinding/CNC circular grinding/grinding industrial knives

SPARK EROSION

BALANCING

THERMAL SPRAYING HVOF, plasma, wire, stellite, ...

WELDING CONSTRUCTIONS TIG, semi-automatic, ...

AUTOMATIC SAWING up to a diameter of 460 mm

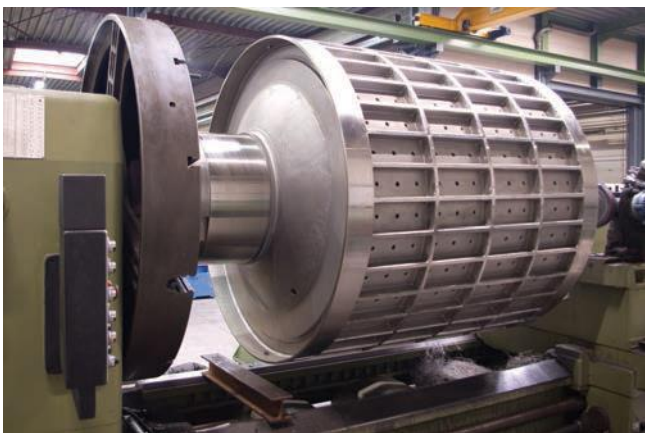

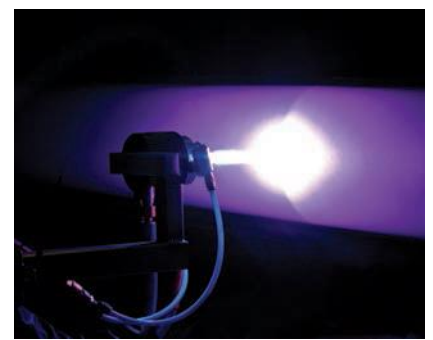

HYDRAULIC PRESSING up to 100 ton

POLISHING & SUPER FINISHING from metals and coatings up to 0.01 $\mu\text{m Ra}$

All our buildings are equipped with overhead cranes
